ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

APPROACH TO ENVIRONMENTAL, SOCIAL AND GOVERNANCE (“ESG”) AND REPORTING

This Environmental, Social and Governance Report (the “ESG Report”) summarises the ESG policies, initiatives and performance of GreaterChina Professional Services Limited (the “Company” and together with its subsidiaries the “Group”) for the year ended 31 March 2018 (“Reporting Period”).

This ESG Report aims to provide a balanced presentation on the Group’s ESG key issues and initiatives covering its four core business segments, namely Asset Advisory Services and Asset Appraisal, Corporate Services and Consultancy, Media Advertising and Financial Services.

The Group’s values are derived from better utilisation of resources and strong relationship with stakeholders. In addition to pursuing profit, the Group takes into consideration of the interests of all stakeholders and has established its key sustainability framework, which comprises of environmental management, human resources, product and service quality as well as governance perspectives.

In order to pursue a sustainable business model, the Group has integrated ESG aspects into its risk management mechanism and has taken corresponding measures in its daily operation and governance perspectives.

REPORTING SCOPE

Unless stated otherwise, the ESG Report mainly covers the Group’s key businesses and operational activities in both Hong Kong and the People’s Republic of China (the “PRC”), over which it has direct management and control.

The ESG Report is organised into two sections, focusing on environment and social aspects respectively. Information relating to the Group’s corporate governance practices can be found in the Corporate Governance Report on pages 13 to 20 of the Annual Report 2018. The Group will continue to assess the major ESG aspects of different businesses to determine the reporting scopes in the future ESG reporting.

REPORTING FRAMEWORK

This ESG Report has been prepared in accordance with the Environmental, Social and Governance Reporting Guide as set out in the Appendix 20 of the Rules Governing the Listing of Securities on GEM of the Stock Exchange of Hong Kong Limited (the “Reporting Guide”).

STAKEHOLDER ENGAGEMENT

The Group values its stakeholders and their feedback regarding its businesses and ESG aspects. To better understand and address their key concerns, the Group has maintained close communication with its key stakeholders, including but not limited to employees, customers and suppliers, through different channels such as meetings and surveys.

The Group continues to enhance its performance, deliver products and services that address stakeholders’ needs and creates greater value for the wider community on a continuous basis.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

A. ENVIRONMENT

A1. Emissions

General Disclosure and Key Performance Indicators (“KPI”)

The Group is aware of its responsibility and required commitment to the environmental protection in its business operations. The Group aims to minimise energy consumption and greenhouse gas emissions; and corporates green practices in its daily operations to minimise its carbon footprint.

Emissions refer to air and greenhouse gas emissions, discharges into water and land, and generation of hazardous and non-hazardous wastes. Since the Group is a service-based corporation, there were neither significant levels of pollutants discharged into air, water and land nor significant generation of hazardous wastes during the Reporting Period. The Group’s greenhouse gas emission mainly originated from electricity consumption in offices as well as diesel and petrol consumption for business vehicles.

During the Reporting Period, the Group was not aware of any material non-compliance with laws and regulations relating to air and greenhouse gas emissions, discharges into water and land, and generation of hazardous and non-hazardous waste that had a significant impact on the Group. The relevant laws and regulations include but are not limited to Waste Disposal Ordinance of Hong Kong and Environmental Protection Law of the PRC.

Managing Greenhouse Gas (“GHG”) Emissions

The Group generated limited GHG emissions, mainly arising from the petrol and diesel consumed by the business vehicles and electricity usage in the offices. During the Reporting Period, the Group’s total GHG emissions amounted to approximately 124 tonnes and the GHG emission intensity was approximately 1.94 tonnes per employee. The detailed summary of the GHG emission is shown as below:

GHG Performance Summary

GHG Scope ¹	Tonnes	Intensity-Tonnes per employee ²
Direct GHG emissions		
— petrol and diesel consumption	39	0.61
Indirect GHG emissions		
— electricity consumption	85	1.33
Total GHG emissions	124	1.94

Notes:

- The GHG emissions data is presented in terms of carbon dioxide equivalent, with reference to, including but not limited to, Greenhouse Gas Protocol published by World Resources Institute and World Business Council on Sustainable Development, and the Guidelines to Account for and Report on Greenhouse Gas Emissions and Removals for Buildings (Commercial, Residential or Institutional Purposes) in Hong Kong, published by the Environmental Protection Department and the Electrical and Mechanical Services Department, the Sustainability Report 2017 published by the Hongkong Electric Company and the latest published Baseline Emission Factors for Regional Power Grids in China.
- As at 31 March 2018, the Group employed 64 employees. This number of employees is used for calculating intensity data in the ESG Report.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Since the electricity consumption accounts for a major source of GHG emissions, the Group has adopted green measures in the offices to improve its operational efficiency and reduce the GHG emissions by minimising energy consumption. During the Reporting Period, the Group has performed the following measures to mitigate emissions:

- Switching off photocopiers, computers, lights and fax machines when not in use;
- Utilising energy efficient lighting;
- Adopting energy-saving mechanical equipment; and
- Displaying labels to remind staff to avoid unnecessary electricity consumption.

Despite the Group's energy efficiency and emission performance being improved in long term, the staff's sense of environment protection and emission mitigation has been continuously fostered and awareness of their responsibility in achieving energy saving in workplace has been strengthened. For results achieved from measures to mitigate emissions, please refer to the section headed "A2. Use of Resources".

Waste Management and Minimisation

The Group adheres to waste management principle and strives to properly manage and dispose wastes produced by its business activities. The waste management practice has been complied with relevant laws and regulations relating to environmental protection. The non-hazardous wastes generated by the Group's operations mainly consist of papers and toner cartridges. The consumption volume generated by the Group during the Reporting Period is shown as below:

Non-Hazardous waste category	Quantity	Unit	Intensity — Unit per employee
Paper	112	Boxes	1.75
Toner cartridge	15	Pieces	0.23

The Group regularly monitors the consumption volume of papers and toner cartridges and has implemented a number of reduction measures. The Groups suitable facilities in its offices and encourages the staff to sort and recycle the wastes to achieve the objectives in mitigating wastes, reusing and recycling in its operations. During the Reporting Period, the Group recycled 110kg of papers. The Group also maintains high standard in waste reduction and educates its employees the importance of sustainable development.

To achieve environmental protection, the Group adopts various measures to minimise waste and consumption levels in its offices:

- Utilising electronic communication, instead of paper-based communication;
- Setting computer defaults to print double-sided, when possible;
- Encouraging staff to bring own cups to avoid using paper cups; and
- Reminding staff to consider the environment before printing the email.

As aforementioned, the Group did not produce any hazardous wastes in its business activities in view of its business nature.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

A2. Use of Resources

General Disclosure and KPI

Achieving High Energy Efficiency

Due to the business nature of the Group, the volume of energy and electricity consumption are considered as relatively low. As mentioned in the Aspect A1, the Group has formulated policies and procedures relating to the environmental management, including energy management.

During the Reporting Period, the Group's consumption in following energy types were:

Energy Type	Quantity	Unit	Intensity — Unit per employee
Petrol	11,458	Litre	179.03
Diesel	2,866	Litre	44.78
Electricity	107,954	kWh	1,686.78

On top of the measures of mitigating the energy consumption mentioned in previous section, the Group strives to utilise telephone or video conference to minimise face-to-face meeting in order to reduce unnecessary business trips. The Group encourages better resources utilisation in daily operation and proactively fosters a low-carbon corporate culture, which further increases employees' awareness in energy conservation. Excluding the full-year effect of the electricity consumption of a licensed corporation which was acquired by the Group in January 2017, the electricity consumption and indirect greenhouse gas emission of the Group during the Reporting Period was reduced by approximately 3% when compared to such in previous reporting period.

Water Consumption and Use of Packaging Materials

In addition to managing energy consumption, the Group is committed to promoting awareness on water conservation amongst its staff and other stakeholders. In view of the Group's business nature, there is no material issue in sourcing water. During the Reporting Period, the Group did not consume significant amounts of water as the water consumption was only limited to basic cleaning and sanitation. In addition, water supply facilities were provided and managed by property management companies of the offices.

Regardless of limited water consumption, the Group promotes behavioral changes at office and encourages water conservation. Pantry and toilets are posted with environmentally conscious messages to remind employees on water conservation, which results in further enhancing to employees' awareness in water conservation.

On top of the water consumption, in view of the nature of business, of which the Group did not have physical product for sale and therefore it did not involve in any use of packaging materials during the Reporting Period.

The Group will continue to seek opportunities to further reduce wastes and make efficient use of resources.
